REGISTRATION STATEMENT INSTRUCTIONS for DEQ WATER FORM *SWGP-VAR05-RS* VPDES General Permit for Industrial Activity Storm Water Discharges (VAR05)

WHO MUST FILE THE REGISTRATION STATEMENT

The owner of any new or existing facility that has discharges of storm water associated with industrial activity through a point source to surface waters, or through a municipal or non-municipal separate storm sewer system (MS4) to surface waters, may request coverage under the VPDES Industrial Storm Water General Permit (VAR05) by completing and submitting this Registration Statement. (See the table on page 3 of these instructions for a list of the specific industrial activity sectors eligible for coverage under the VPDES Industrial Storm Water General Permit - VAR05)

WHERE TO FILE THE REGISTRATION STATEMENT

Submit the completed Registration Statement with original signature, along with a copy of the Permit Application Fee Form, and a copy of your check to the DEQ Regional Office that serves the area where your facility is located. The original Permit Application Fee Form and your check for \$500 (made payable to "Treasurer of Virginia") should be sent to DEQ Receipts Control, P.O. Box 1104, Richmond, VA 23218. Regional Office addresses can be obtained from our website at www.deq.virginia.gov/regions, or by calling the DEQ at (804) 698-4000.

COMPLETENESS

In order for your application to be deemed complete and permit processing to continue, all items must be completed, or "NA" entered if the item is not applicable. If you need more space than the form allows, attach extra sheets of paper with the required information.

STORM WATER POLLUTION PREVENTION PLAN (SWPPP)

Owners of facilities that were covered under the 2004 Industrial Storm Water General Permit who are reapplying for coverage under this general permit must review and update their SWPPP to meet all new general SWPPP and sector-specific SWPPP requirements of the general permit (see 9 VAC 25-151-70 et seq.) by October 1, 2009.

Owners of new facilities, facilities previously covered by an expiring individual permit, and existing facilities not currently covered by a VPDES permit who are applying for coverage under this general permit must prepare and implement a written SWPPP for the facility in accordance with the general permit requirements (see 9 VAC 25-151-70 et seq.) prior to submitting the Registration Statement.

ANTIDEGRADATION REQUIREMENTS

Coverage under this general permit will not be granted unless the facility's storm water discharges comply with Virginia's Antidegradation Policy for Water Quality Standards under 9 VAC 25-260-30. If the facility's discharges will not comply with the antidegradation requirements, an individual permit application may be required to allow a discharge that meets the requirements for High Quality Waters (see 9 VAC 25-260-30 A 2), or a permit may be denied to meet the requirements for Exceptional Waters (see 9 VAC 25-260-30 A 3). The Department will notify the applicant if authorization to discharge under this general permit will not comply with the antidegradation requirements.

PUBLIC REVIEW PERIOD

All complete Registration Statements will be posted to DEQ's web page (www.deq.virginia.gov/vpdes/publicnotices) for a 30-day public review prior to the Department issuing permit coverage for a facility.

SECTION-BY-SECTION INSTRUCTIONS

Section 1 Owner/Operator/Responsible Party Information

Give the legal name of the person, firm, public organization, or other entity that owns the facility site described in this registration statement. The name of the owner may or may not be the same as the name of the facility operator. The operator is the legal entity that controls the facility's operation. Do not use a colloquial name. Enter the complete address, phone number, and email address (if available) of the owner, the operator, and the responsible party.

Section 2 Facility Information

Enter the facility's or site's official name and complete street address, including city, state, ZIP code, and county/city name. Also include a contact name, phone number, and email address (if available).

Section 3 Facility Ownership Status

Indicate the appropriate status type of the owner of the facility.

Section 4 Name of the Receiving Waters

Enter the name of the receiving water(s) for the facility's storm water discharges (e.g., Clear Creek; unnamed tributary to Dragon Run; Southern Branch Elizabeth River; etc.).

Section 5 Additional Discharge Information

If the facility discharges storm water to a municipal separate storm sewer system (MS4), enter the name of the operator of the MS4 (e.g., municipality name, county name, VDOT, etc.). An MS4 is a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) that is owned or operated by the state (e.g., VDOT), city, town, county, district, association, or other public body, which is designed or used for collecting or conveying storm water.

Additional notification for discharges to MS4s. If the facility's storm water discharges are through an MS4, the owner must notify the operator of the municipal system receiving the discharge, and submit a copy of their registration statement to the municipal system operator.

Section 6 Existing VPDES Permits

List the permit numbers of all existing VPDES permits issued to the facility or site identified in Section 2.

Section 7 General Location Map and SWPPP Site Map

Attach a copy of the SWPPP general location map.

Owners of facilities that were covered under the 2004 Industrial Storm Water General Permit who are reapplying for coverage under this general permit must submit a copy of their SWPPP site map (updated to meet all new permit requirements - see 9 VAC 25-151-70 et seq.) to the DEQ Regional Office by October 1, 2009.

Owners of new facilities, facilities previously covered by an expiring individual permit, and existing facilities not currently covered by a VPDES permit who are applying for coverage under this general permit must include a copy of their SWPPP site map with the Registration Statement.

Section 8 Facility SIC Codes

Identify up to four 4-digit Standard Industrial Classification (SIC) codes or 2-letter Industrial Activity Codes that best represent the principal products or services rendered by the facility and major co-located industrial activities. The 2-letter Industrial Activity Codes are: HZ - hazardous waste treatment, storage, or disposal facilities; LF - landfills/disposal facilities that receive or have received any "industrial activity" wastes; SE - steam electric power generating facilities; or, TW - treatment works treating domestic sewage

Section 9 Applicable Industrial Sectors

Also identify the storm water outfalls associated with each identified sector. The industrial sectors are listed in Table 1 (see instructions p. 3). The outfall numbers should match those shown on the facility's SWPPP Site Map. In addition to attaching the list, answer the five additional questions in Section 9 as they apply to the facility's outfalls.
